CONCERNING EMPLOYMENT

There is a tightening of the laws in many states regarding the employment of married women. This is especially true in the field in Florida. Where they formerly raised objections if the husband was employed by the state, it is now whether the husband is employed at all. This problem has rapidly spread into education and there are many schools who do not employ married women under any circumstances. There are two sides to the question and we are not taking sides, for everyone knows the various instances where each has a strong case. But we do see the passing of many bills in the land limiting the employment of married women. The national employment situation being what it is, the fact that there are still women who work after marriage when they have a husband able to support them, is an angle that must be considered.

COUNTRY DOCTOR

It pleases us that there is more recognition given yearly to our country doctors. They have been the material for a revival

of interest in movies, fiction and on the radio. There are those who believe that the training and equipment of the country doctor is not up to modern standards, but that is not as true today as in past years. We must remember that the country doctor made up for a technical knowledge with a personal knowledge of the patient and his family for many generations back, and this is an important item in present day medicine. They call it case history. The country doctor was a pioneer in this field, he battled against fear and superstition and ignorance. He was handicapped by poor roads and unsanitary conditions. He dwelt with all civilization and made the way easier for the modern physician. The country has been given a back seat as eyes turn to large hospitals and expensive laboratories, equipment and training. The time is indeed ripe to speak of the nation's debt and obligation of science, to these our country doctors.

A FASHION NOTE

Leave it to the French to give us a stylish note, even in gas masks! The contour of the mask resembled the French, so attractive but the French are making cloth covers to carry their masks to harmonize with the garments of the women. The cases vary for each outfit and no doubt very fanciful in design, as are many French creations. The seriousness of gas-masks is rather off-set by making their necessity into an occasion for technique in costume-making. A serious angle of war broken up with notes of fash and feathers, fashions and fancy.

Canal Point P.T.A. Held Regular Meeting Monday Evening

The Canal Point Parent-Teacher Association met in regular session in the school auditorium Monday night with Mrs. G. L. Sims, vice president, presiding. Miss Gladys Folson was elected secretary and Mrs. E. C. Brewton parliamentary. Mrs. F. B. Anderson was recommended as manager of the cafeteria.

Mrs. W. P. Jernigan as chairman of the program committee, announced, Miss Sue Maxwell, Mrs. G. B. Sartoris as Mrs. A. W. Folson would serve with her on the committee.

The following rosin mothers were named: Mrs. Earl Maxson, first grade; Mrs. Ralph Williams, second; Mrs. Bertie Smith, third; Mrs. Hilaria Sears, fourth; Mrs. Bruce Elam, fifth; Mrs. C. S. Singleton, sixth; Mrs. A. W. Folson, seventh; Mrs. Duke Tucker,

eight and ninth. Mrs. W. P. Jernigan gave a splendid report for the Library Committee of which she is chairman. The P.T.A., with funds matched by county and student activity funds, spent \$131 for new books this past year. The same Library committee was re-appointed to serve this year.

Principal J. B. Cox reported that there is approximately a 27 per cent increase in enrollment in the Junior High, the total number being of pupils. Enrollment in the Elementary grade is slightly less than last year. He also reported 25 members, boys and girls, serving on the school's Safety Patrol.

The banner for attendance was won by the Eighth and Ninth grade room with E. C. Brewton, teacher.

Following the business session, Trustee O. B. McClure spoke on the progress the school had made in the county. He stated that, while not seeking perfection, he will continue to be interested in and assist in every way possible

the schools of the Glades section. County Superintendent John I. Boardman commended the Glades schools on rating the highest possible rank in the State system. He spoke on the subject of "Youth in the Schools of Today."

The major objectives of present day education he declared, are to teach the youth the principles of physical and mental health; a command of the fundamental subject matter; development of character; worthy home membership; acceptance of civic responsibility; vocational aptitude and a worthy use of leisure time.

At the conclusion of the meeting refreshments were served in the school cafeteria by Mrs. Hazel Rosenberg, Mrs. A. W. Folson and Mrs. D. W. Geiger.

1940 Chevrolet—

(continued from page 1)

featured on the Special De Luxe and Master De Luxe series, conventional I-beam front axle with semi-elliptic springs and air-line type shock absorbers being retained on the Master 85.

Except for the difference in front suspension and the use of a slightly higher gear ratio on the Master 85, the chassis of the three series are practically identical. All are of the same wheelbase, and the power plant is the same throughout. It is the time-tried Chevrolet six-cylinder valve-in-head engine, revised in several particulars in the interests of silent operation, smoothness, and long life. These changes affect the oil system, the valve mechanism, and the cam shaft, and in the two latter cases involve change in manufacturing practices as well as in design.

In appearance, the 1940 Chevrolet is new from bumper to bumper. Bodies, fenders, hood, and fenders are completely re-designed to embody low-slung grace. These changes result also in increased stability, since they lower the center of gravity of the car as a whole. Changes, except for trim and extra equipment, are the same on all three series.

The radiator grille, one of the most obvious outward changes, is much lower and wider. The massive chrome-plated horizontal bars at the lower part of this unit sweep outward to include the fender area formerly occupied by auxiliary lights. The alligator-jaw type hood has a deep, gracefully rounded nose, and is designed in such a way that the time along which it opens is undisturbed when the hood is closed. The hood is equipped with a theft-proof lock so that because the engine compartment can be gained only after releasing a control knob under the dash within the car. Release of the latter allows the hood's spring-loaded hinges to raise the nose, giving access to a secondary lock which releases it the rest of the way. This secondary lock prevents the hood from being jarred or blown open while in motion, even if the first dash lock should be accidentally released.

Announcing THE NEW FORD CARS FOR 1940

22 important improvements, added to fundamental Ford features, represent the most advanced engineering in the low-price field

WHAT do the Ford cars for 1940 offer to match their brilliant new beauty? New comfort, convenience, quiet, safety—and the roomiest, richest interiors ever designed for a Ford car.

They have a host of interesting new features. Finger-Tip Gearshift on the steering post. An improved transmission, unusually easy to shift. New Controlled Ventilation. Improved shock absorbers. Softer springs, improved spring suspension and a new ride-stabilizer.*

A combination of new features makes the new cars quieter in operation. They have big, powerful hydraulic brakes. They have new Sealed-Beam Headlamps that are safer, stronger and stay brighter longer. They have the famous Ford V-8 engine (85 hp in the De Luxe Ford. Choice of 85 or 60 hp in the Ford)—which blends 8-cylinder smoothness with economy.

You've never seen cars with so much performance, style and comfort at such a low price. Get acquainted. You'll enjoy the experience!

22 IMPORTANT FORD FEATURES

- FOR COMFORT—More room inside. New Controlled Ventilation. New torsion bar ride-stabilizer.* Improved spring suspension.* Self-sealing shock absorbers. Two-way adjustable driver's seat. New type resilient front seat backs. New "Floating" Edge Seat Cushions.
- FOR CONVENIENCE—New Finger-Tip Gearshift. Engine more accessible. Two-piece steering wheel.
- FOR SAFETY—Sealed-Beam Headlamps. Dual windshield wipers at base of windshield. Large battery. Battery Condition Indicator on all models.

BLUE DEVILS

Starting early in the first quarter, the Pahokee Blue Devils defeated the Tarpons from Punta Gorda 19 to 0, Friday night. Sparked by Peacock, the Blue Devils showed the fans the power they really had in stock.

In the first quarter after moving the ball to the 30 yard line, the Blue Devils opened their power. A few short line plays netted them yardage and then Peacock threw a short pass to Baxter who ran over the goal line for the first score.

In the second quarter, John Kautz intercepted a Punta Gorda

pass and raced over the goal line for the second touchdown. In the fourth quarter, Peacock with the aid of nice blocking swept around the flank of the line, ran for another touchdown for the Blue Devils.

Only once during the game did Punta Gorda threaten to score. On a series of ground rushes, aided by penalties, they moved the ball to the 10 yard line, but were thrown back by a strong Blue Devil line. Joe Roberts and Bill Weeks were outstanding players for the visitors.

The game play-by-play:

Pittman kicked off to Dell on the 18 yard line, returned to the 29 yard line. Dell crashed center for no gain. Dell through center of the line good for 3 yards. Kautz through center for 3 yards. Baxter kicked out of bounds on Punta Gorda's 22 yard line. Roberts attempted a pass to Blackmon, incomplete.

Alexander through the center of the line good for 2 yards. Roberts for 1 yard. Alexander kicked to Kautz on the 30 yard line, returning to the 41 yard line. Kautz

Bridge Gang On Lake Harbor Job

L. M. McLeod of Tampa arrived in Lake Harbor this week to begin work of removing an old, Coast Line wooden trestle and make a fill over the "old, empty canal." A six car bridge gang of 11 men also arrived to begin the work. It is estimated the work will be completed in a couple of weeks. Praying for what you need instead of what you want, might be your fortune.
